This is a placeholder file.

Replace `public/resume.pdf` in this project with your real resume PDF, keeping the same filename. Nothing else needs to change: every download button on the site reads `RESUME_URL` from `src/config/site.ts`, which points at `/resume.pdf`.

If you prefer a different filename or an external link, edit `RESUME_URL` in `src/config/site.ts` instead.

Generated as part of the portfolio scaffold. It contains no resume data.
